The WTS Pittsburgh Chapter's TransportationYOU Program is offering multiple scholarships (up to \$750) toward the cost of a STEM/transportation related summer camp of your choice*.

WTS fosters the development of women and girls in the transportation field by encouraging students to undertake careers in the area of transportation. One way it does this is by awarding scholarships to middle and high school girls studying science, technology, engineering, and math.

TransportationYOU is a hands-on, interactive, mentoring program that offers young girls ages 13-18 an introduction to a wide variety of transportation careers. Through the TransportationYOU program and this scholarship, WTS chapters work to make a difference in the lives of young girls by offering opportunities and activities that will spark their interest in all modes of transportation and encourage them to take courses in math, science, and technology, which are the stepping stones to exciting careers that can change the face of the transportation industry.
